

# “A new look, with more Truffle Stracciatella.”

Our **Truffle Burrata 80g (2 x 40g)** has a new look! Our team have worked on making them even more loaded with Truffle Stracciatella, delivering a creamier, more oozy eating experience.

**What's changed?** Over the next week, our Truffle Burrata will transition to a crimped top, removing the head. The mozzarella skin will also be made thinner overall.

These changes will allow us to increase the amount of Truffle Stracciatella inside by **three times**. The previous Truffle Burrata contained 11g of Truffle Stracciatella, while the new version will contain 33g.

**What hasn't changed?** Everything else. This improvement will be made with no change to pricing, packaging, or barcode. You can continue selling this product uninterrupted.
